New Car Rental Facility at Hyde Park

The site consists of the former petrol station, built as part of the larger Portsea Hall residential development, located to the north of the site and facing on to Kendal Street and underground car park.

The proposed works along with the proposed change of use, taking it from a car wash property to a car rental premises, involve a degree of new external building works in order to provide a suitable operations space and better connection between the new and existing facilities.

The proposed building works include a new frontage and street presence, connection between new shop front and existing back of house facilities and the refurbishment of existing back of house facilities.

Key Aspects

- Prestigious London location
- Sliding showroom doors
- Level covered customer accessibility
- Roll-out programme across the UK
